### Question: 9. Please provide us with any feedback on matters not covered above.

Respondent	Response
4	I used the tutoring lab to study slides/ labs from my course independently.
37	Didn't go to tutoring lab.
41	Tutoring lab needs to update their pictures of gram stains, etc.
47	Everyone is very helpful, also nice and well educated.
48	Late tutoring times for working students like from 8-10 pm or 9-12 am.
59	Couldn't get in the class because I lost my ID.
65	I've used tutor lab before when I was in anatomy 1.
72	Have more Chem. tutors!
84	I just went there to study, I haven't talked to a tutor.
95	I did not attend enough to use a tutor only used materials.
99	Please get more and better chemistry, math, and bio tutors. Be open longer!!
102	All the tutors are great, but if there was more models to work with it would be much better, because there was always a wait list.
105	99.9% of the tutor were not helpful. My professor provided everything for us and was very helpful. ██████ is the best!
108	It was great time! ██████ professor ██████ got me to love Anatomy which I couldn't even imagine. I will miss this
110	It was amazing to have access to almost all the models needed to study for exams!
112	More bone models + muscle models! A better sign in front proccers for material, it was confusing!
113	I used workshops and it was very helpful, could not go to tutoring lab, because of lack of time.
118	I would recommend tutoring to people that have time, I learn great things.
123	You guys are great!
125	Tutoring lab was great resource but I personally would like if the tutors were more proactive in offering help; I have never spoken with a tutor unless it was to check in/out models.
126	Only outside of class time because they were available! ██████ & ██████ were always super helpful and helped me a lot.
128	The need of more materials would be necessary.
130	The tutoring lab was helpful. I would have never succeeded without the material and tutoring assistance.
133	Possibly be open more days out of the week!
134	Some mods did not have keys available. Others had difficult to read numbers on the models. I appreciate all the tutors!
137	I love Anatomy.

**Question: 9. Please provide us with any feedback on matters not covered above.**

<b>Respondent</b>	<b>Response</b>
142	Wish more tutors were available before exams. More models to borrow. Time of lab to be more flexible both for am and pm classes.
171	Was really crowded at times & loud, which made it difficult to concentrate.
174	Although I did not attend myself, I have heard that it is very helpful. If my schedule/ life wasn't too busy, I would have attended a few sessions.
181	The tutoring lab can be hard to study in because people form groups and it becomes too noisy to concentrate.
182	██████ is very knowledgeable about anatomy.
184	Thank you for offering the tutoring labs!
189	Need more flexible time.
191	I would go more if they were open later. ██████ was great and helped a lot.
192	Keep the tutoring quiet please!
193	Some models need a upgrade(missing # or letters) I went to lab alone so had no tutoring services.
194	██████ ██████ is the best prof I have taken yet and would recommend ██████ to n ██████ was a great tech.
198	Some tutors and like they aren't confident about what they know.
211	There's no internet there sometimes.
225	Tutoring lab was a great help!
230	I went to only work on the lab notebook. I only asked one question. Other times I went, the bio 6 tutor was not there.
236	The tutoring lab was very helpful for anatomy. I didn't need it for Microbio or physiology.
241	I used tutoring for anatomy a lot! Not as much need for the lab in physics, but I plan to use it for micro in the spring!
245	I wish I could use this service, but I never had enough time to attend one.
250	Great experience. Used lab for models but multiple models in the lab would be nice. During the test there are very limited models available.
251	More models please. And taken care models with keys.
252	More times on Saturday or 6-8 pm during week.
266	I think the tutors need to be trained or show more knowledge of the subject. They aren't very helpful.
280	Tutoring should be continued with option of me on one instructor & more models please.
284	Useful for basic question.
