

Executive Summary

Q: A brief recap or highlights of the entire program review document. (500 words or less)

- Highlight major strengths and weakness.
- Highlight areas for improvement over the next 3-6 years.

Response:

The collaborations that the Career/Transfer Center has with the Counseling Department and other programs such as TriO, EOPS, Writing Center, STARS, CTE, Cooperative Education, Team Transfer and Equity has allowed it to provide a series of activities and services that it would not be able to do on its own. Collaborations with university stakeholders such as UCLA, UCB, CSUN, CSULA and Pepperdine have also allowed students to explore options that fit their academic and career aspirations. Their presence on campus along with invites to their campuses allows the student greater choices when it comes to choosing a university to transfer to.

A major weakness of the program is the lack of appropriate dialogue and support for career development/exploration and transfer across the campus. Independent efforts are being made by different offices/stakeholders but there are no coordinated efforts or institutional focus on career development/exploration and transfer at this time.

Areas for improvement over the next three to six years include continued and expanded efforts of the different student and academic services areas on campus in regard to career development/exploration and transfer. With appropriate funding, the Career Transfer Center will be able to update its career/transfer library and computers. This will provide students with the resources and tools necessary to enhance their chances of completing their academic and vocational goals in a timely manner.

Participants

Q: Please indicate the individuals that participated in the completion of this program review.

Response:

Clive Gordon, Ashley Du
