Music is a natural part of life for toddlers. But an early introduction to music does more than entertain - it can kick start learning, offer lifelong benefits plus it is FUN! Can't carry a tune? Kids don't care. Music brings out the creativity, imagination and joy in all of us. You'll leave with fresh ideas on how to introduce your children to all kinds of music. No Itsy Bitsy Spider or Twinkle Twinkle Little Star will be sung here, we are branching out and rocking out! So come and join us for a night of music, movement and merriment!
