Enrollment Update

Spring Late starts performed well. On Census, they were 79% full. Enrollments for Spring have softened significantly. Although the college is still working towards meeting base, it is unlikely that we will reach base. Current projections show LAVC at between 2 and 3% under base.

Enrollment Plan Tracking

It was agreed that to track the enrollment plan, it should be divided up and assigned to members so they can produce short (2-3 sentence) updates on progress. Assignments were made and everyone agreed to complete it by our final meeting on May 25, 2017.
