## **Howard J. Levine C.P.A.**

Howard J. Levine C.P.A., an accounting firm in the Los Angeles area, concentrates in bookkeeping, accounting, tax return preparation, tax planning and consulting for small businesses, partnerships and corporations, as well as tax exempt (nonprofit) organizations and private foundations.

With over thirty years experience both as a college teacher and in private practice, plus experience with National accounting firms, Howard has created a diverse client base and a wealth of experience.

Howard provides expert accounting and tax services to a unique group of clients nationwide. These clients range from small retail businesses, multi-office physicians and a variety of service businesses, to nonprofit organizations and private foundations with budgets under \$100,000 to assets over \$100 million!

Howard's background is as impressive as his client base. He received his B.S. degree from San Diego State University, after being nominated to just about every academic honorary society. After passing all four parts of the C.P.A. test on his first try, Howard worked for a National accounting firm, auditing and advising everything from small to multinational businesses. In 1979 Howard formed his own accounting practice, starting with just two clients (one of who was his father) out of his apartment. This practice has now grown to hundreds of clients throughout the United States.

Howard is actively involved in the community. He has served as both a member and Southern California coordinator of the Technical Review Panel of the California Board of Accountancy. His volunteer activities also include serving as Treasurer, as well as on the Board, of numerous organizations, including the local PTA, plus coaching boy's baseball and girls softball teams. He is currently serving as a California representative of the I.R.S. Taxpayer Advisory Program.

Since 1980 Howard has taught courses and seminars and delivered lectures at various colleges and universities, plus for numerous community-based groups. He continues to present a variety of public and in-house workshops, and teaches accounting at Los Angeles Valley College. He is also a diplomat of the American Board of Forensic Accountants.

As each of Howard's clients will attest, the personal service Howard strives for is never forgotten, since both Howard and his staff know that communicating with, and helping clients, is the only reason they are in business. Unlike many accountants and attorneys, Howard never bills his clients for phone calls, assuring that clients are never afraid to ask a question.
