More information on our recovery plans will be available in the next week or two.

Class Operations

Q: What does “remote delivery” mean? (Updated 3/30/20)
A: While there are some technical differences between “remote delivery” and “online,” for the most part it means that classes and services will be accessible online. Classes may be synchronous, meaning they will take place at the same scheduled time as usual, or they may be asynchronous so that class material is accessible at any time. The decision as to whether a class will be offered synchronously or asynchronously is up to the instructor.
Q: How will hands-on lab classes be delivered in a remote environment? (Updated 3/30/20)
A: Most hands-on lab classes are being converted to remote delivery using programs such as Labster, which provides interactive laboratory simulations. Students are encouraged to contact their instructors for more information about how individual classes will handle lab components.

Q: How will exams be administered? (Updated 3/30/20)
A: Check with your instructor for details on how exams will be administered. A common method used throughout California is through Proctorio, a remote proctoring service. However, some classes may use other services.

Q: Why are some online exams being monitored (with Proctorio)? (Updated 4/15/20)
A: Los Angeles Valley College is dedicated to maintaining academic honesty and an optimal learning environment for students as outlined in LACCD Board Rule 9803. Proctorio supports academic honesty by providing automated online proctoring services and identity verification. Maintaining academic honesty creates fairness for students, so that everyone knows that the grade you get is the grade that you earned. Furthermore, we are required by both the Federal government and our accrediting agency, the Accrediting Commission for Community and Junior Colleges, to verify the identity of distance education students. Online proctored exams are one method that we use to fulfill this requirement.

We are currently working with several hospitals to determine when it is safe for students to resume their clinical work. As soon as information is available, instructors will communicate the updates to their students.

After that date, a student who continues to experience personal, professional or academic challenges due to COVID-19, may request an EW by sending an email from their district email account to the petitions@lavc.edu. Students may request an EW grade up to one year after the class ended.

We will have more information in the coming weeks about how those classes will complete all of their requirements, but in the meantime much of the course materials will continue online.

Q: Can you provide an update to those 23 classes that could not fully transition to online operations? (Updated 5/11/20)

http://laccd.edu/About/News/Documents/Students/April%207%202020%20-%20Important%20Update%20on%20Pass-No%20Pass%20Grading%20Option.pdf

Before submitting a petition, students are strongly encouraged to speak with a Counselor to discuss their options for taking a course Pass/No Pass and the impact it may have on their academic standing, admissions, financial aid, and transfer to a CSU, UC or private universities.

Q: Is there a deadline for P/NP? (Updated 4/14/20)
A: The deadline to petition for the P/NP option is the same as the last day to withdraw with a “W,” and can vary depending on the length of the class. The searchable online schedule has the information for specific dates for all classes. Look for the specific class number of the section, then look at the bottom for the date next to “Last date to drop with a ‘W’.”

Q: Can students still elect for Pass/No Pass for Spring classes? (Updated 6/8/20)
A: Students can still submit a petition for P/NP by sending an email to petitions@lavc.edu with the class information. Students should send this petition from their District email address (Student.laccd.edu).

Q: Will P/NP affect our GPA? (Updated 4/21/20)
A: Students are strongly encouraged to speak with a Counselor to discuss their options for taking a course Pass/No Pass and the impact it may have on their academic standing, admissions, financial aid, and transfer to a CSU, UC or private universities.

Most transfer institutions do not compute a GPA for a Pass/No Pass course; however, in some instances a passing grade is computed at a 2.0 level, potentially adversely affecting a student’s overall GPA score.

Private and out-of-state universities have different policies on use of Pass/No Pass.

Most transfer institutions—including CSU, UC, and graduate or professional schools—require courses for the major to be completed with a letter grade. A Pass grade may result in a student needing to retake a course either before or after transfer.

The UC has waived the limitation on total number of units allowable by Pass/No Pass, but has not waived requirements for local transfer requirements or major courses to be taken by letter grade.

A transfer, professional or graduate institution may restrict the allowable transfer units taken as Pass/No Pass. Nursing program course prerequisites may require a letter grade.
Q: Can students selectively choose P/NP for only some of their classes? (Updated 4/14/20)
A: Yes, students may selectively choose which courses they want to take P/NP. Students should speak with a counselor before petitioning for that option to ensure that they will not be negatively impacted, particularly in the case of applying to a four-year university or specialized program.
