12	All over! There is no consistancy! Having to constantly log in & not have your info saved is extremly aggrevating! In the AHS building we can't receive emergency texts or phone calls! On the 1st floor we keep getting bumped off the system which impacts our class learning/lectures! Then everyone has to go thru the vicious cycle of logging back on again..... over & over again. Stop blocking our phone carriers data on our personal devices!!! We pay for our services and at least they are more reliable when off campus.	3/21/2015 8:54 AM

69	I have personally seen the coverage in most of the buildings; however, the issue is that most of the time I am not able to connect to the internet. It often drops the connection and most of the time it appears to simply be unavailable, thus making my portable devices very unreliable to do school work. It might work sometimes; however, most of the time it does not. I personally do not own a cell phone with constant access to the internet; therefore, I need to be able to access the school's wifi through my tablet, putting me in a huge disadvantage.	3/13/2015 11:13 AM

112	student email easier to access on mobile devices	3/13/2015 10:03 AM
113	New students are , we need a dedicated computer lab the month prior and first week of each semester to allow students to register for classes without having to leave campus (this lowers the chance they'll actually do it). New students aren't allowed to use the computers in the library unless they're enrolled, trying to register for classes on your phone is terribly inefficient and most new kids are that need help. So turning a computer lab,such as the Math science ones, into a temporary registration room would work wonders for the kids and help them actually enroll.	3/13/2015 8:53 AM

I really feel myself learning more than the "easy way" by using the technology style. (The pen and the paper, the pen and paper; The strongest way to learn.) This is my opinion.	3/12/2015 9:24 PM

231	Don't tell the students that computer problems are not excepted when we hear that from my professor. When something isn't posted correctly oh I had computer problems	3/9/2015 10:02 PM
232	the only thing would be, as for the posts and announcements online to be more detailed.	3/9/2015 7:48 PM
233	Internet Speed.	3/9/2015 4:53 PM
234	It would be nice if there was a LAVC app where I could check my email, classes, discussions and syllabus. Using a browser is to do this is not easy when accessing LAVC	3/9/2015 4:27 PM
235	access for registration on mobile	3/9/2015 2:44 PM
236	LAVC website usully has a hard time running on chrome, or on a mobile device. So do any school programs, such as MyItLab, ect	3/9/2015 1:40 PM
237	Internet in Bungalows for math	3/9/2015 1:07 PM
238	It took me two semesters to learn how to log into LAVC's wireless network. A good amount of students don't know either. This information should be made easy to find, or at least sent to student emails every semester.	3/8/2015 10:16 AM
239	More efficient internet and easierlogging on to the server as it sometimes shuts down randomly	3/7/2015 2:53 PM

385	let every one know how to log into a computeur at school	2/27/2015 7:34 PM
386	Mechanical devices to check out library books would be useful.	2/27/2015 5:01 PM
387	The internet connection should be faster on a mobile device when at the college campus.	2/27/2015 4:47 PM
388	The internet should be improved to use the wifi anywhere on campus.	2/27/2015 4:09 PM
389	the portal should be better managed as it is very important for professors and students to use. The portal not functioning properly causes alot of disruption and time wasted.	2/27/2015 4:05 PM
390	Educating professors about how to use technology in their curriculum. That's the biggest flaw I see. I took a computer drafting class and while the professor had a lot of practical knowledge, he lacked the technical expertise to fully engage the students.	2/27/2015 3:43 PM
391	Free ebooks	2/27/2015 2:45 PM

429	ability to skype with professors during office hours if student cannot meet in person	2/26/2015 10:36 PM
430	the mobile platform for eTudes needs to have more options for connecting to email and classes	2/26/2015 10:34 PM
431	wifi connection	2/26/2015 10:18 PM
432	I think it would be best if on campus classes would cut back on the usage of the LAVC Portal, Haiku, and other such programs. It does tend to add more stress onto an already hectic scheduling. I don't need it to follow me home, especially when I already have papers and projects to work on then.	2/26/2015 10:17 PM
433	The Student Information System cannot be access from my mobile devices that use the Android OS regardless of which browser I use. The system needs to be updated or have a separate app that allows access from ALL smartphones.	2/26/2015 9:27 PM
434	Student information system is always down after midnight, and doesn't come back till like 9am...how is anyone supposed to get anything done that way? It's not like you guys are improving it, so why is it down so much? I really doubt it needs that much down time!	2/26/2015 9:05 PM

498	Having to constantly log in is not only time consuming and annoying, but the need to always enter a password has time restraints to how long you can be connected often causing logging off after a period of time or if I turn my wifi on. Students should be able to log in once a semester and constantly be able to connect to the wifi automatically once wifi is turned on. This is possible. My old college had this. Which is fantastic. Often I find myself having to re log in if I change buildings or lose wifi connection which results in chances of not seeing emails in a speedy time or being able to get school work done etc	2/26/2015 1:59 PM

23	Lecture notes be avialible online	2/26/2015 1:13 PM
24	A mobile audio device for the instructors attached to a speaker system, so that they can be audibly heard in any part of the class room would really help. I have severe ADHD and when I cannot hear the teacher I cannot learn. It forces me to have to sit in the front of the class, if I'm not able to then I don't do as well.	2/25/2015 7:20 PM
