

Los Angeles Valley College
Course Level Student Learning Outcomes (SLO)

Course Name and Number: Recreation 83

Course Title: Field Work III

Course Objectives: (List the course objectives as they appear in the course outline of record.)
Formulate a plan to achieve their desired objectives as a supervisor. Students will be able to evaluate their progress at achieving their goals.

Assess the risk factors involved in recreational administration and employ appropriate safety procedures.

Explain the role of a recreation supervisor in the Psychology of Behavior, including the goals of behavior in the recreational setting.

Describe the goals and objectives of a supervisor in recreational programs and the role of a recreation supervisor in creating a healthy lifestyle.

Design a plan to instruct recreation employees about sexual harrassment policies and their effect in the recreational setting.

Formulate a comprehensive plan for organizing a group activity involving two or more employees, including goals and objectives of the activity.

Establish 1–2 course level student learning outcomes and indicate how each SLO will be assessed.

Course Level Student Learning Outcome	Assessment Measure
Identify five risk factors in recreational administration and five appropriate safety proceures.	A check list ruberic will be used to assess the students response.
