

**Los Angeles Valley College
Course Level Student Learning Outcomes (SLO)**

Course Name and Number: Spanish 9: Hispanic Civilization

Course Objectives: (List the course objectives as they appear in the course outline of record.)

1. Locate the main political, geographical, and linguistic regions in Spain; examine and interpret modern Spain's cultural unity and the political, linguistic, and cultural diversity of its autonomous regions.
2. Recognize and describe significant moments in Spain's social and cultural history.
3. Differentiate the various peoples and cultures that have shaped Spanish history and interpret their influences and contributions to Spain.
4. Analyze the role of Spain in the discovery of America and critically assess Spain's contributions to Latin America.
5. Identify and critically examine the main artistic manifestations of Spanish art through history: Architecture, painting, sculpture, and literature.
6. Compare, and contrast the cultural manifestations of the different autonomous regions.
7. Compare, and contrast Spain's popular culture and Spain's present role within Europe and the world.

Establish 1–2 course level student learning outcomes and indicate how each SLO will be assessed.

Course Level Student Learning Outcome	Assessment Measure
Students will be able to recognize and distinguish the main traits of the culture and civilization of Spain throughout its history.	Evidence of mastery of this SLO may include (but it is not limited to) exams and /or the research of cultural topics, reports or presentation in print and /or electronically (PowerPoint presentations or websites, etc.). A cultural rubric will be developed to assess the students' output.
