

Los Angeles Valley College
Course Level Student Learning Outcomes (SLO)

Course Name and Number: Supervised Learning Assistance 001T

Course Objectives: (List the course objectives as they appear in the course outline of record.)
Upon successful completion of this course, the student will be able to identify and demonstrate individualized goals in the designated subject area; practice skills in his/her designated subject matter to improve critical/creative thinking skills; learn and practice better study skills; demonstrate progress in his/her ability to work independently and achieve an improved functional level of independent performance in the designated subject area; and demonstrate progress in his/her ability to work collaboratively with the goal of improved performance in the designated subject area.

Establish 1–2 course level student learning outcomes and indicate how each SLO will be assessed.

Course Level Student Learning Outcome	Assessment Measure
Demonstrate improved performance in tutored subject	Analyze student surveys to evaluate student reported improvement

Provide an assessment plan/timeline:

At the end of each semester, Learning Center instructors will evaluate student surveys and final class grades to determine success and retention based on subject specific tutoring (Fall 2007)
