IV. Items from the Floor

R. Stein reported that Gary Colombo is pushing for SLOs to be incorporated into the course outline of record. She asked for the committee position on the matter. S. Berger reminded the committee of the reasons why this idea was opposed over three years ago. The reasons were a concern for articulation, the need to revise SLOs more often than the course outline of record in the SLO cycle, and that by keeping the SLOs as an addendum, those faculty who were opposed to SLOs were more willing to let the process move forward than had they been in the course outline of record.
