## Meet your Embedded Tutor, *Kinch!*

[Language: English | Filipino]

Delighted to virtually meet you all. I'm Kinch and I am a proud product of LA Valley College. I am now at CSU-Long Beach majoring in BA Psychology in hopes of becoming an Industrial/Organizational Psychologist someday.

I love working with others which made tutoring a humbling and exciting opportunity for me since day one. I love cleaning, singing, studying Statistics (YES!), and cooking on my spare time (not necessarily in that order). Getting asked Psychology/Statistics course related questions is a conversation I certainly enjoy.

***"Fake it 'til you become it"*** – one of my favorite mottos by Social Psychologist Amy Cuddy. I've always daydreamed of being a student at The Beach, now here I am. If you think Statistics or any course is hard, let's work through it together and pass it because you can!

I am a tutor but more so your peer.

Own it! You got this!
