

Winter 2019 Tech Fest

LAVC Professional development presents Tech Fest: workshops centered around the use of technology. Come partake in one workshop or as many as you can, as we learn from our own resident experts how to use various technologies well. Lunch is provided if you RSVP to profdev@lavc.edu no later than January 18th, 2019.

Tech Fest Sessions

Outlook & Office 365 [Jaime Holladay-Collins](#)

Do you often wonder how to get more out of Outlook? This session will offer up tips and tricks on what Outlook can do that you might not already know. Office 365 is coming...

Competency Based Grading [Jim Marteney](#)

To earn their grade students need to work their way up the different levels, just like a computer game. The back story is that they start as a visitor to the White House and work their way up to Chief of Staff by passing the different levels. Come hear how this works and give feedback.

Canvas: Rubrics [Jim Marteney](#)

Rubrics let people know exactly what is expected in an assignment or task.

Canvas: Welcome Letter, Student Orientation [Magda Walsh and Sally Raskoff](#)

We'll discuss how to welcome students before and at the start of class, so that they know how to navigate the course.

Canvas Tips and Tricks, Panel [Ilene Sutter](#) (Announcements and Navigable Home page) [Fay Sheikholeslami](#) (NetTutor)

Podcasting [John Kawai](#)

The What, Why, and How of Podcasting.

The Vision Resource Network and Cornerstone [Jeanne Owens and Sally Raskoff](#)

Learn about an online system for your professional development needs and the system that will replace our flex forms with an online archive.

Video Captioning [Jose Torres and Becky Frank](#)

Do you have videos that you'd like to post but they're not yet accessible? This session walks us through how to make captions and how to embed the captioned video into Canvas. Bring headphones and a thumb drive with your video clips.

Embedding Library Resources into Canvas [Meghan Cason](#)

The Library offers many resources to enhance your Canvas course and engage your students, including: OneSearch, Credo, Kanopy, Swank Digital Campus feature films, and Library Guides.

Photoshop [Luiza Minasyan](#)

Here's an introduction to how to get the most out of Photoshop to create effective and pleasing graphics.

Syllabus - for online class, hybrid, and web-enhanced classes

[Magda Walsh and Sally Raskoff](#)

Syllabi should look a little different when it's for an online, hybrid, or web-enhanced class. This session will explore those and other aspects of syllabus design.

Using Canva (not Canvas) [Magda Walsh](#)

Canva is a free online platform for creating graphics and documents.

Using your smart classroom and other media equipment [Jose Torres and Jesus Quintero](#)

Our media services professionals, Jose and Jesus, take us through how to use the media equipment in the classrooms across campus.
