1	I am so happy that I chose valley college as my school and I graduated from there. its nursing department, faculty and staff are so organize and helpful. teachers are so knowledge and master in their career. I learned a lot from them and their experiences. thank you so much every one	4/24/2015 10:01 AM
2	I think the nursing program should reimplement the preceptorship program it had before. I feel that that was the time where I really learned the most about managing my time and actually seeing and going through the whole process of the role of the nurse. I also believe that there should be a bigger emphasis on actually creating a career portfolio or resume as part of the curriculum of the leadership course. I believe that will really benefit future students and guide them to success.	4/24/2015 1:55 AM
