LaunchBoard

Data-Backed Decisions

The CTE LaunchBoard, a statewide data system supported by the California Community Colleges Chancellor's Office and hosted by Cal-PASS Plus, provides data to California community colleges and their feeder K-12 school districts on the effectiveness of CTE programs. This information is intended to facilitate local, regional and statewide conversations about how to improve student transitions from K-12 to college and on to the workforce. Click on [this link](#) to view video tutorials on specific tools within the LaunchBoard.

LaunchBoard Features

The LaunchBoard includes several tools to support collecting and viewing information on student outcomes in CTE.

Program Snapshot

The Program Snapshot includes graphical, question-and-answer style reports on programs, labor market demand, completion, and employment outcomes.

Program Tables

The Program Tables provide detailed information on programs, grouped into categories including program size, student characteristics, milestones, success, employment, and regional labor market information. It includes disaggregated metrics as well as comparison data on historical trends, regional totals, and state medians.

Strong Workforce Program Metrics

Program-level information on the metrics associated with the Strong Workforce Program, including comparison data based on historical trends, regional and state medians, the highest state outcomes, and college goals.

CTE Outcomes Survey Tool

The CTEOS Reporting Tool is intended to make Career and Technical Education Outcomes Survey (CTEOS) responses more broadly available to faculty and administrators.

CCPT Tab

The California Career Pathways Trust (CCPT) tab is a voluntary tool intended to foster conversations within CCPT grant consortia by bringing together information on grant outcomes and activities in one, easy-to-access location.

LaunchBoard Resources

Looking for more information on what the LaunchBoard is and how to use it? Access a suite of FAQs, recorded webinars, guides, and videos to get your questions answered.
